Caltech-101 held-out silhouettes | Stage 0 | Seed 42
Fixed centers selected from 50 restarts; all held-out samples; scores sorted within each cluster

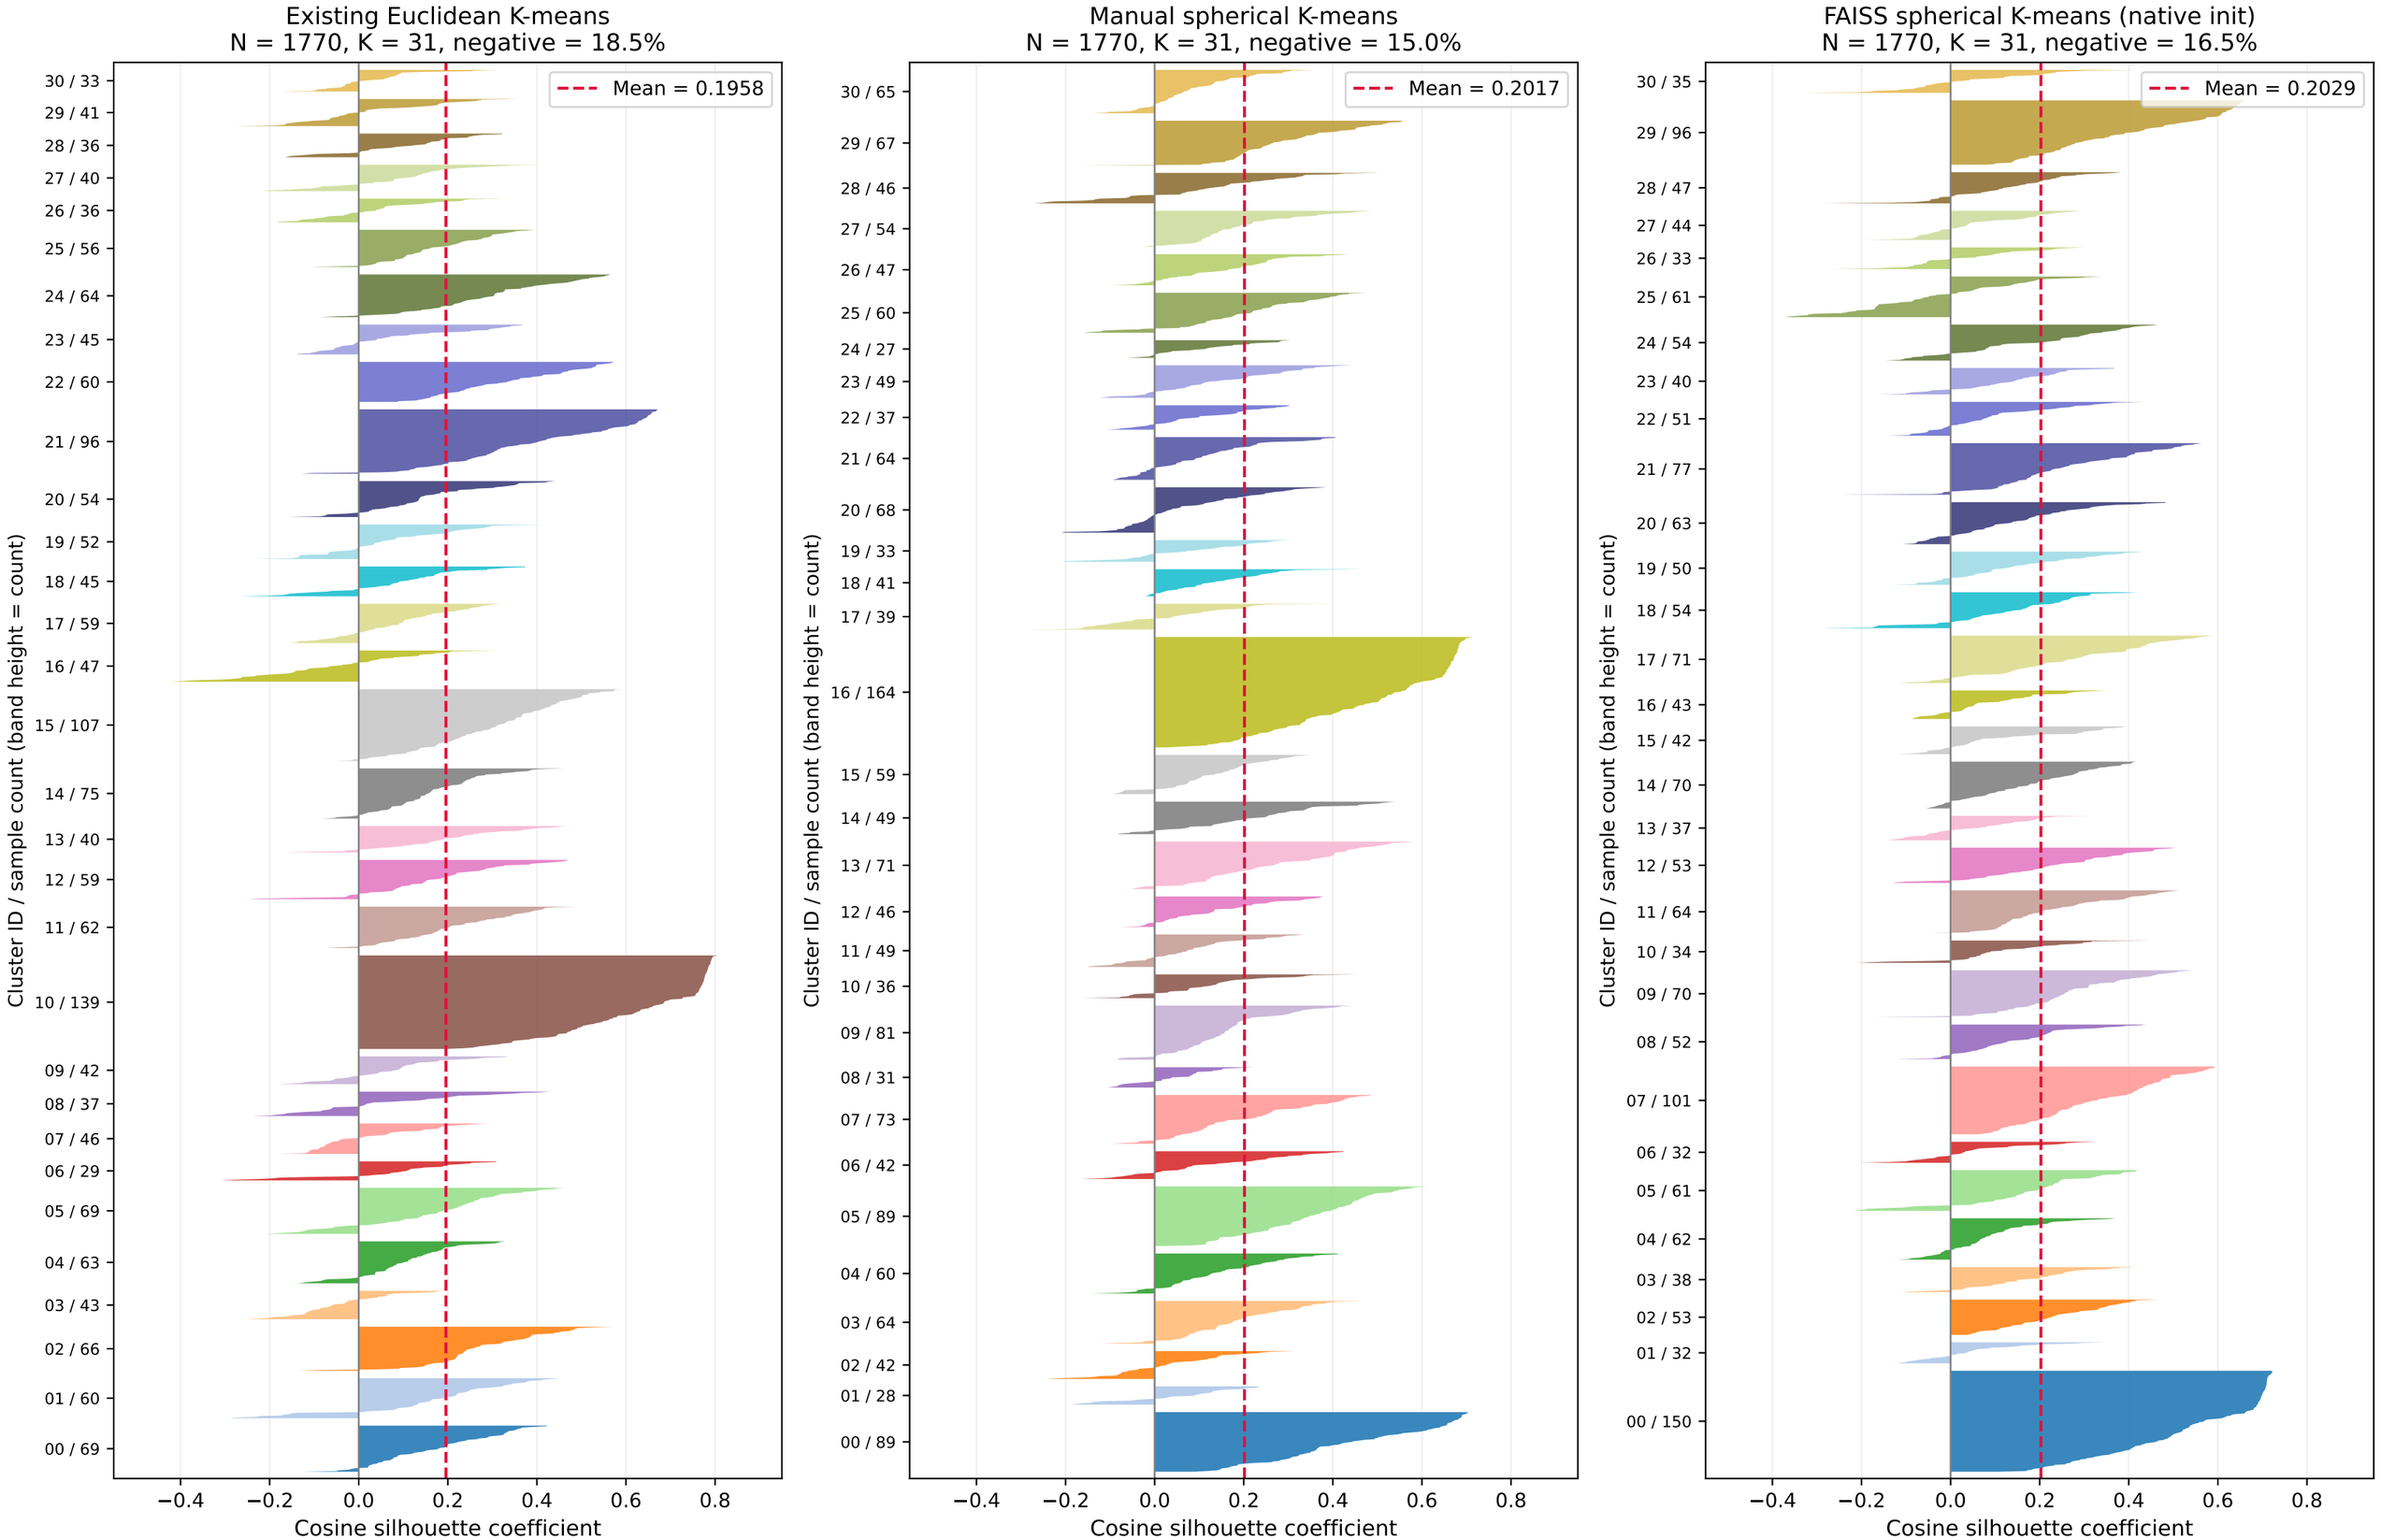

Cluster IDs and colors are local to each fitted model; matching IDs across panels do not imply matching clusters.

Caltech-101 held-out silhouettes | Stage 0 | Seed 43
Fixed centers selected from 50 restarts; all held-out samples; scores sorted within each cluster

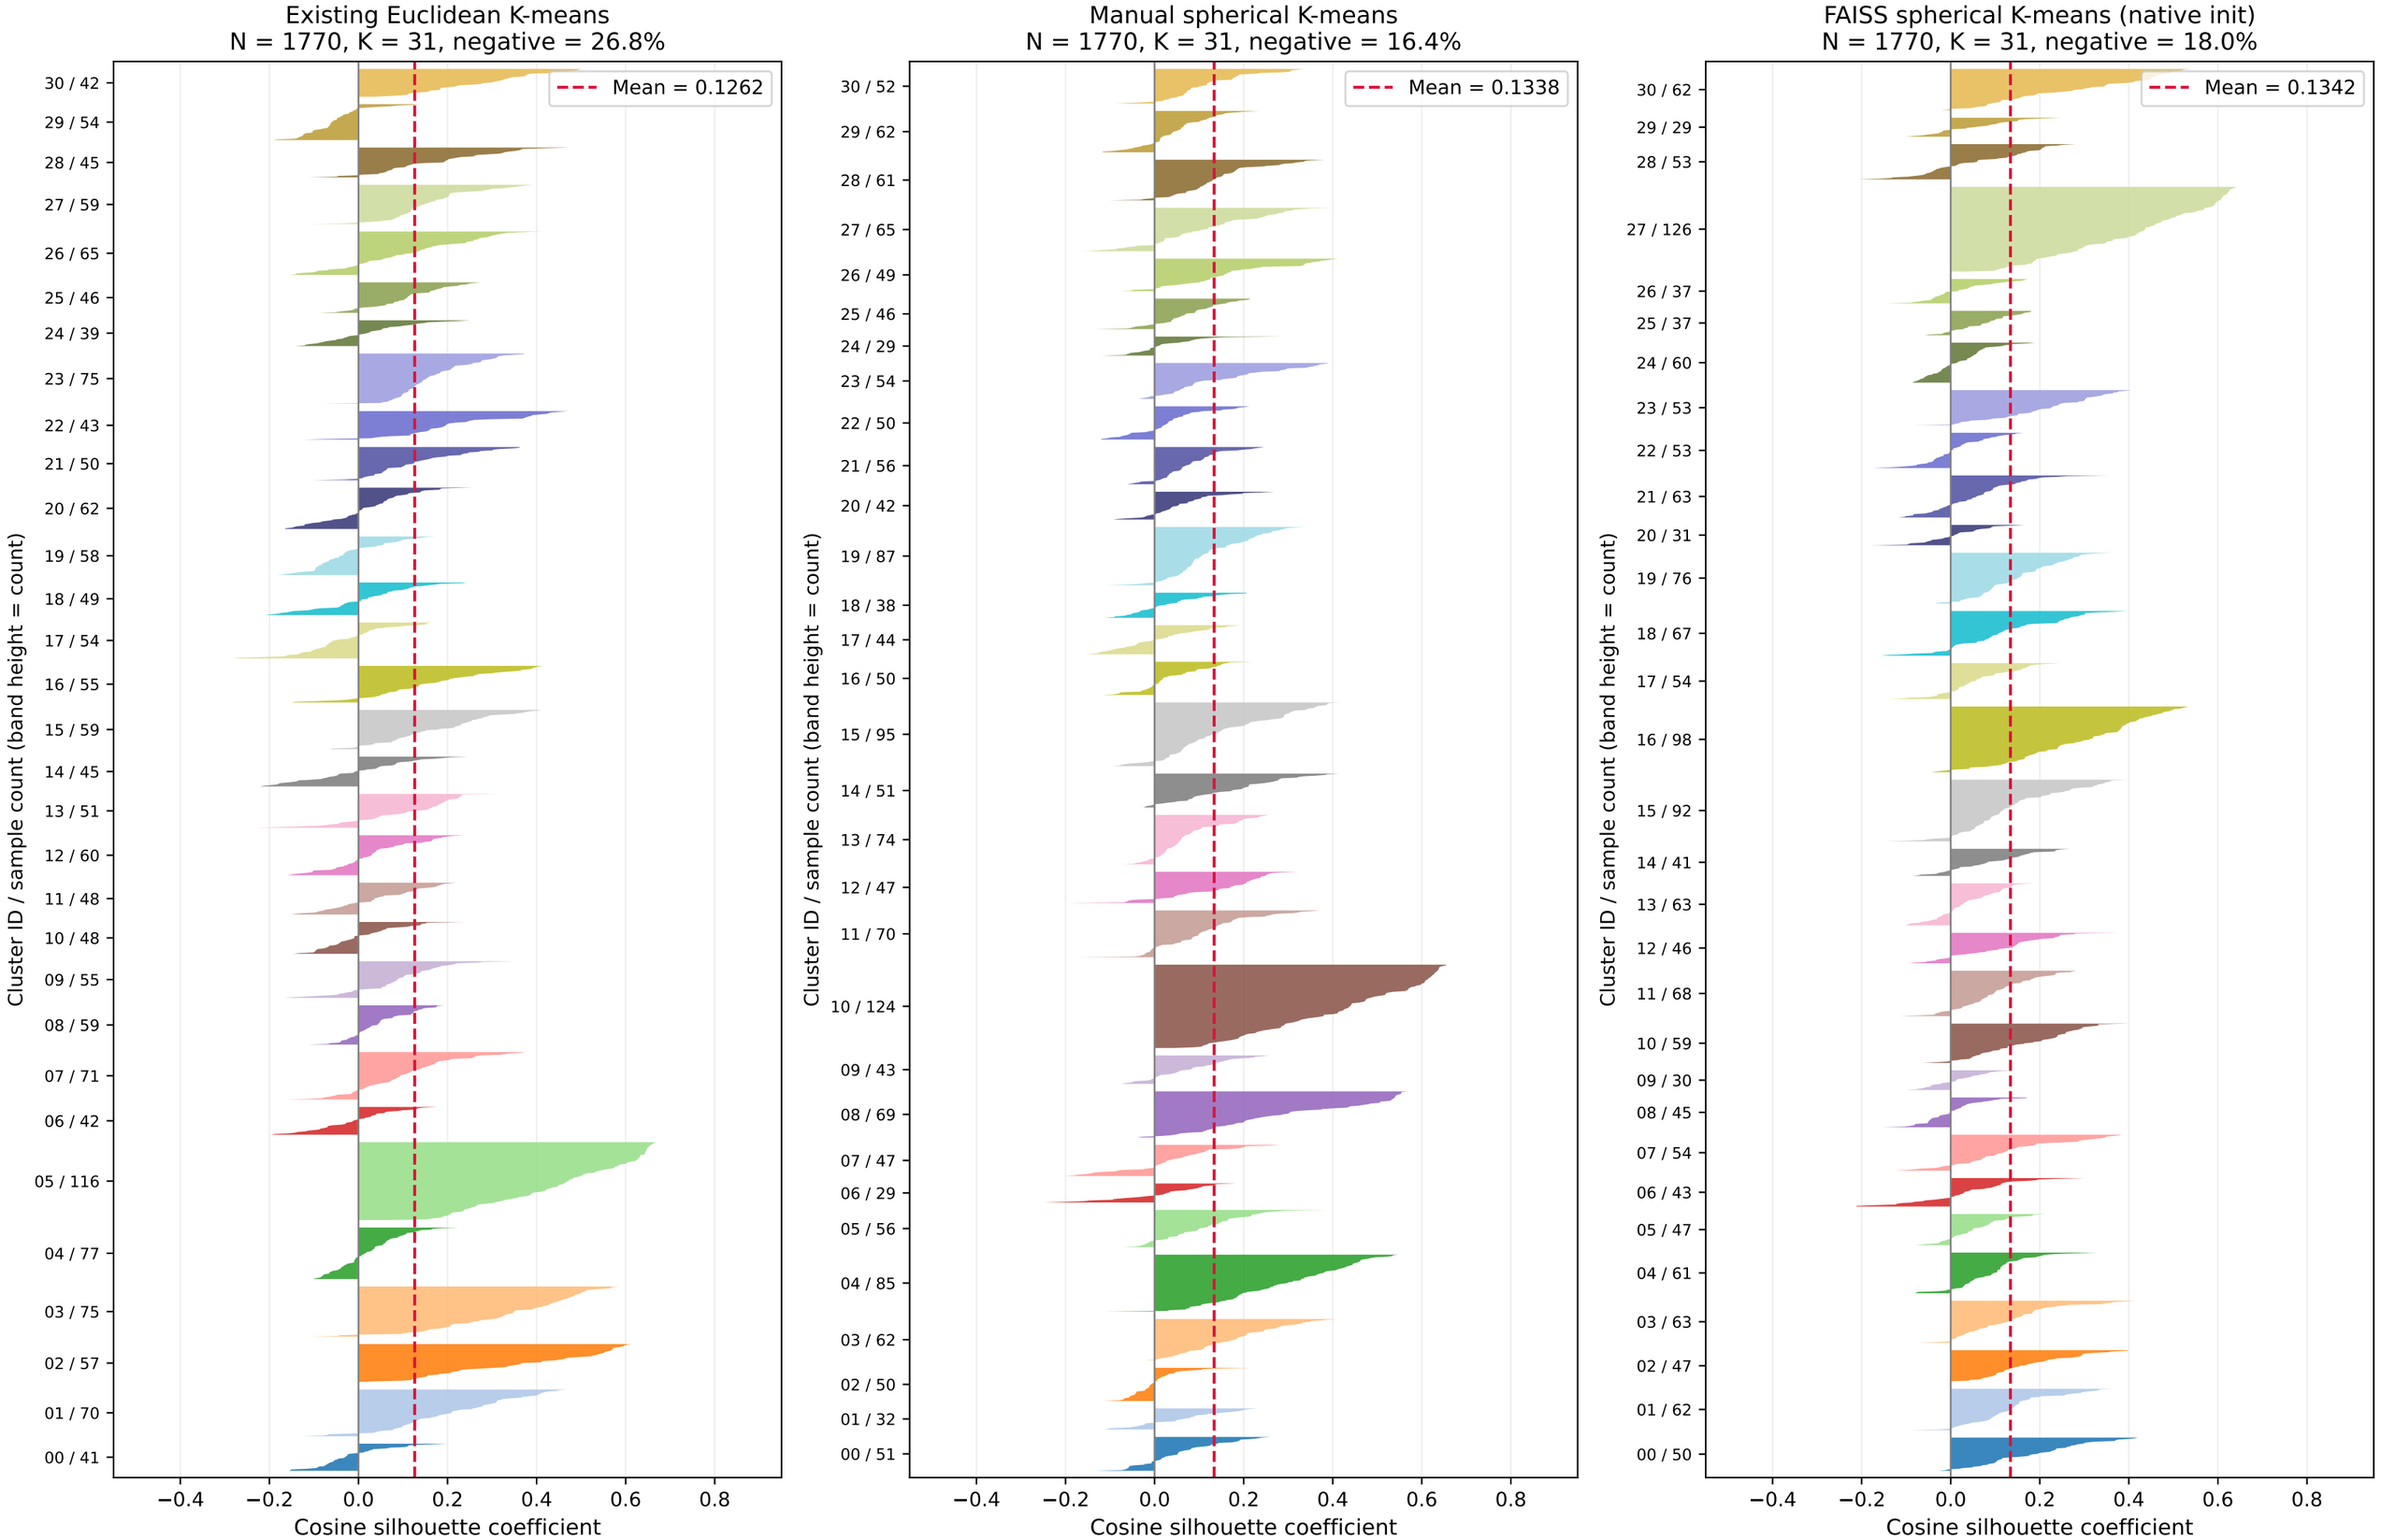

Cluster IDs and colors are local to each fitted model; matching IDs across panels do not imply matching clusters.

Caltech-101 held-out silhouettes | Stage 0 | Seed 44
Fixed centers selected from 50 restarts; all held-out samples; scores sorted within each cluster

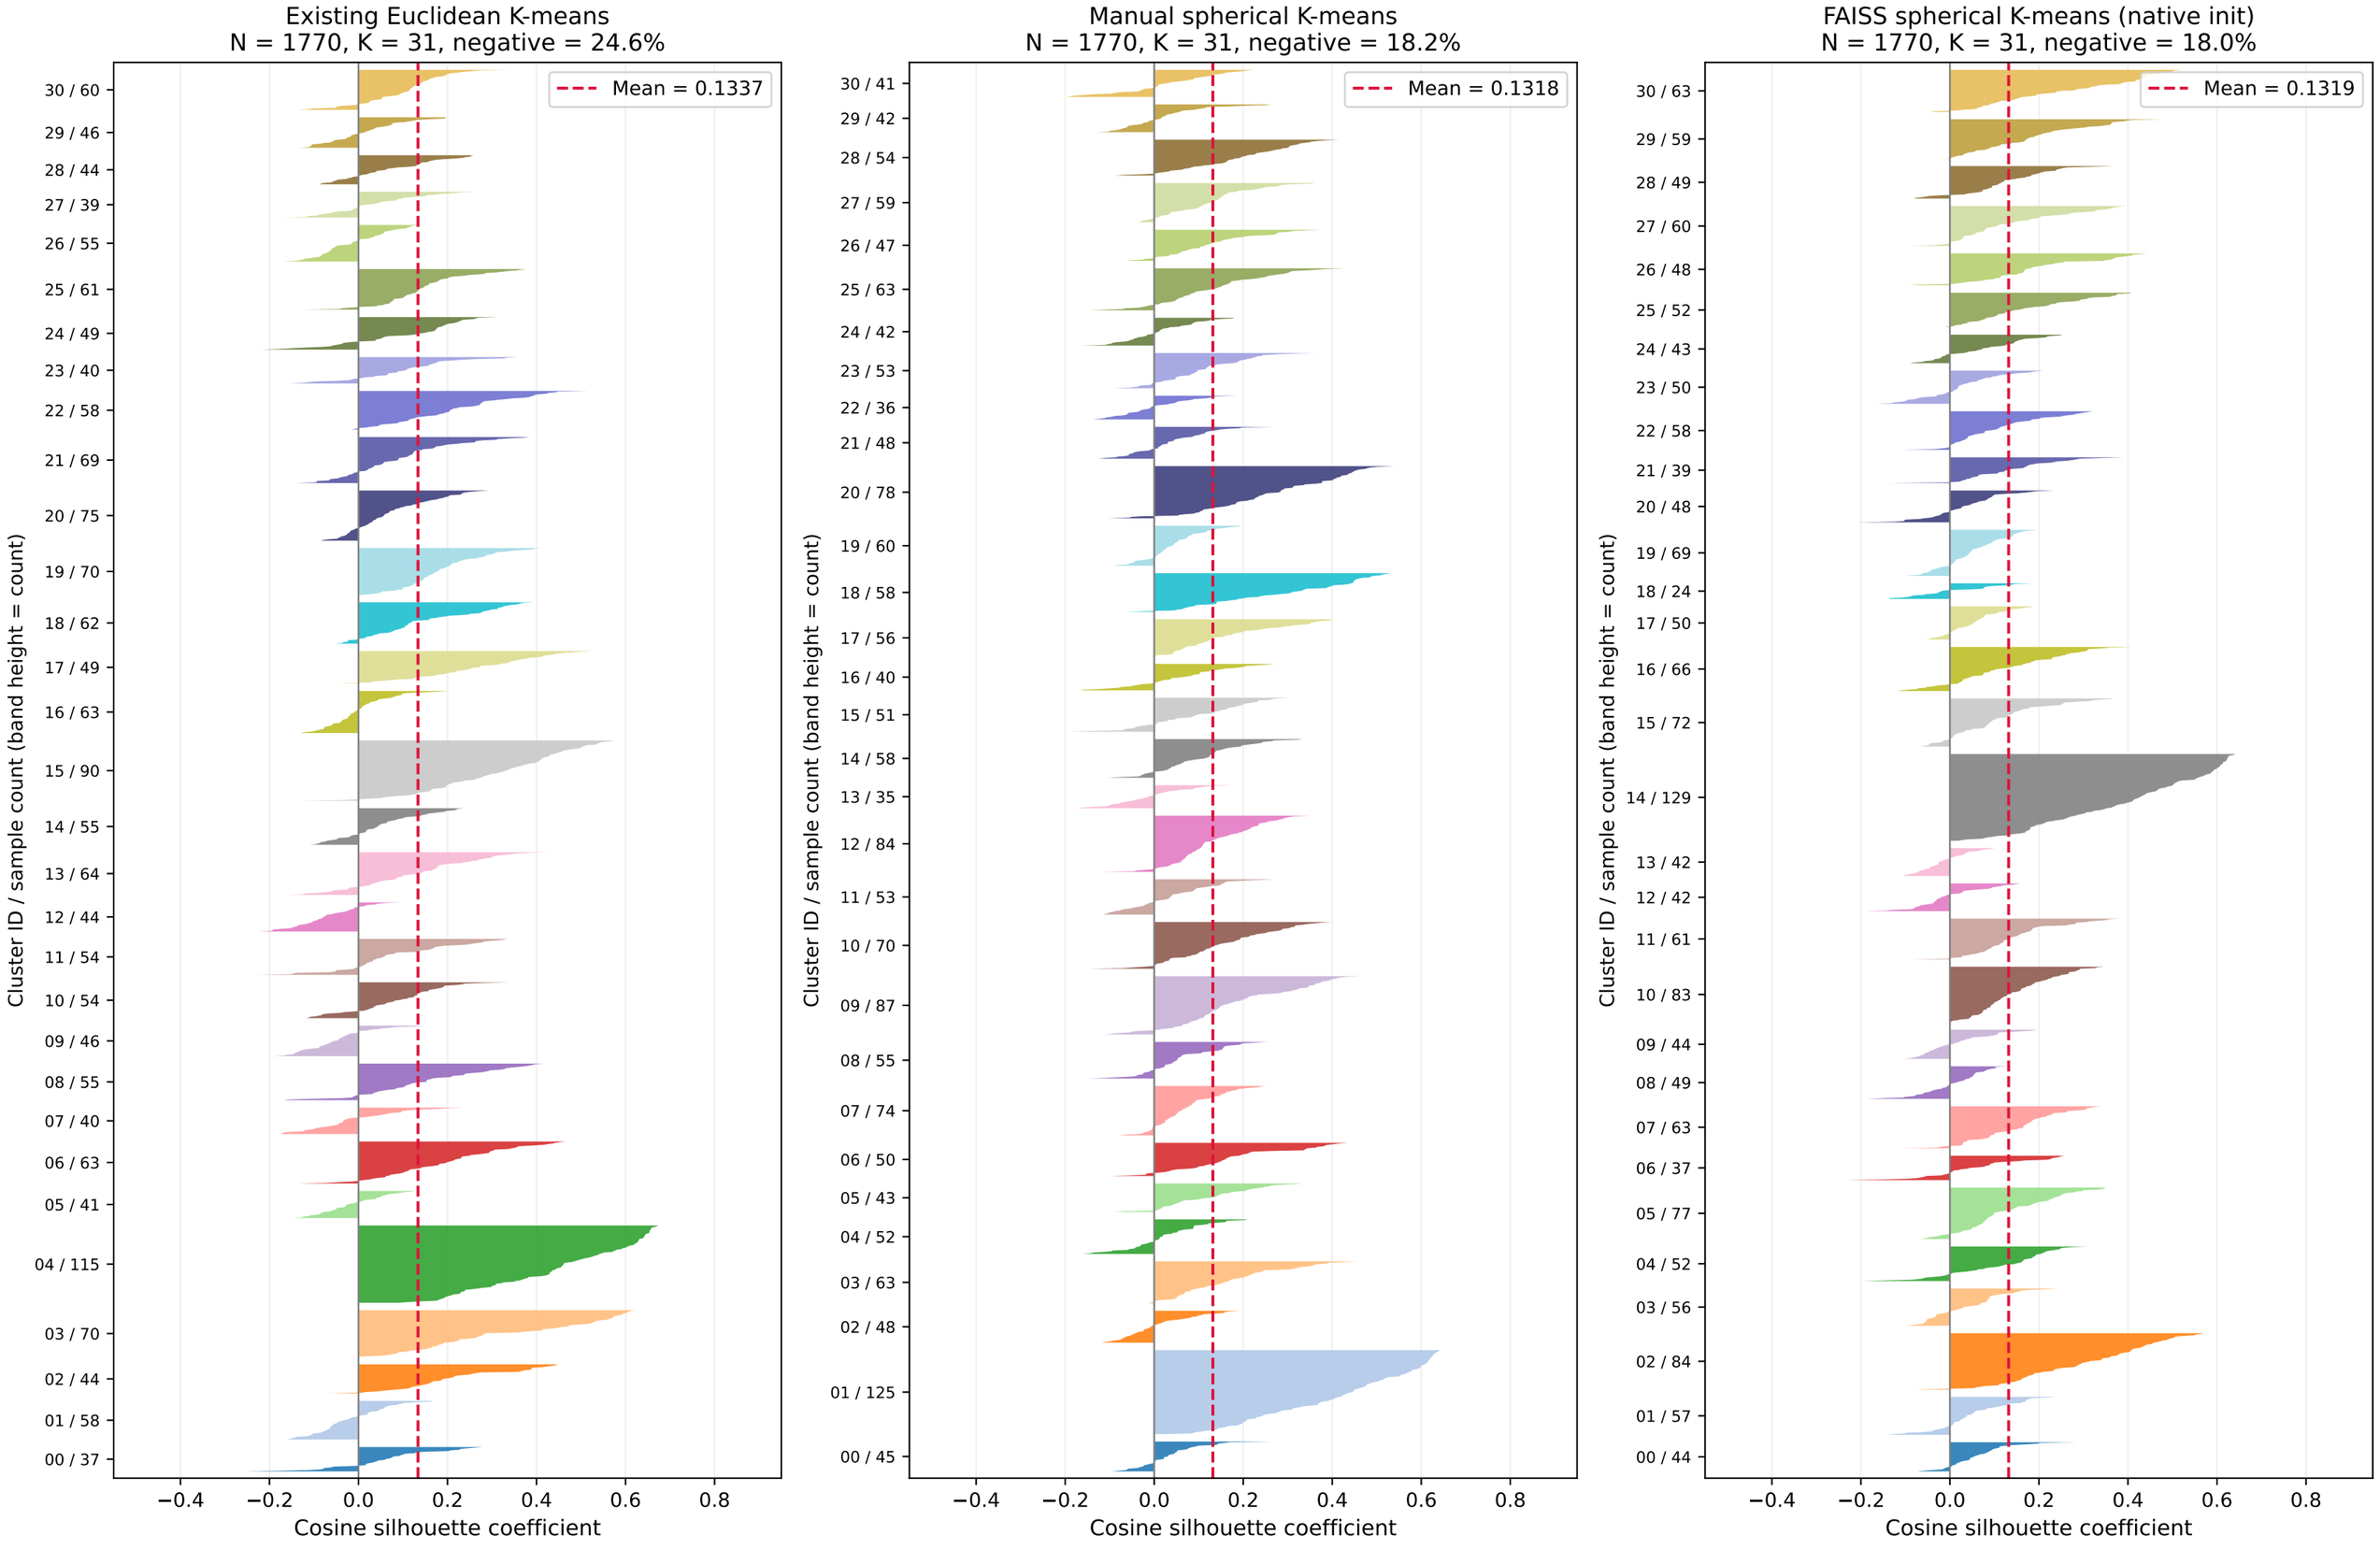

Cluster IDs and colors are local to each fitted model; matching IDs across panels do not imply matching clusters.

Caltech-101 held-out silhouettes | Stage 1 | Seed 42
Fixed centers selected from 50 restarts; all held-out samples; scores sorted within each cluster

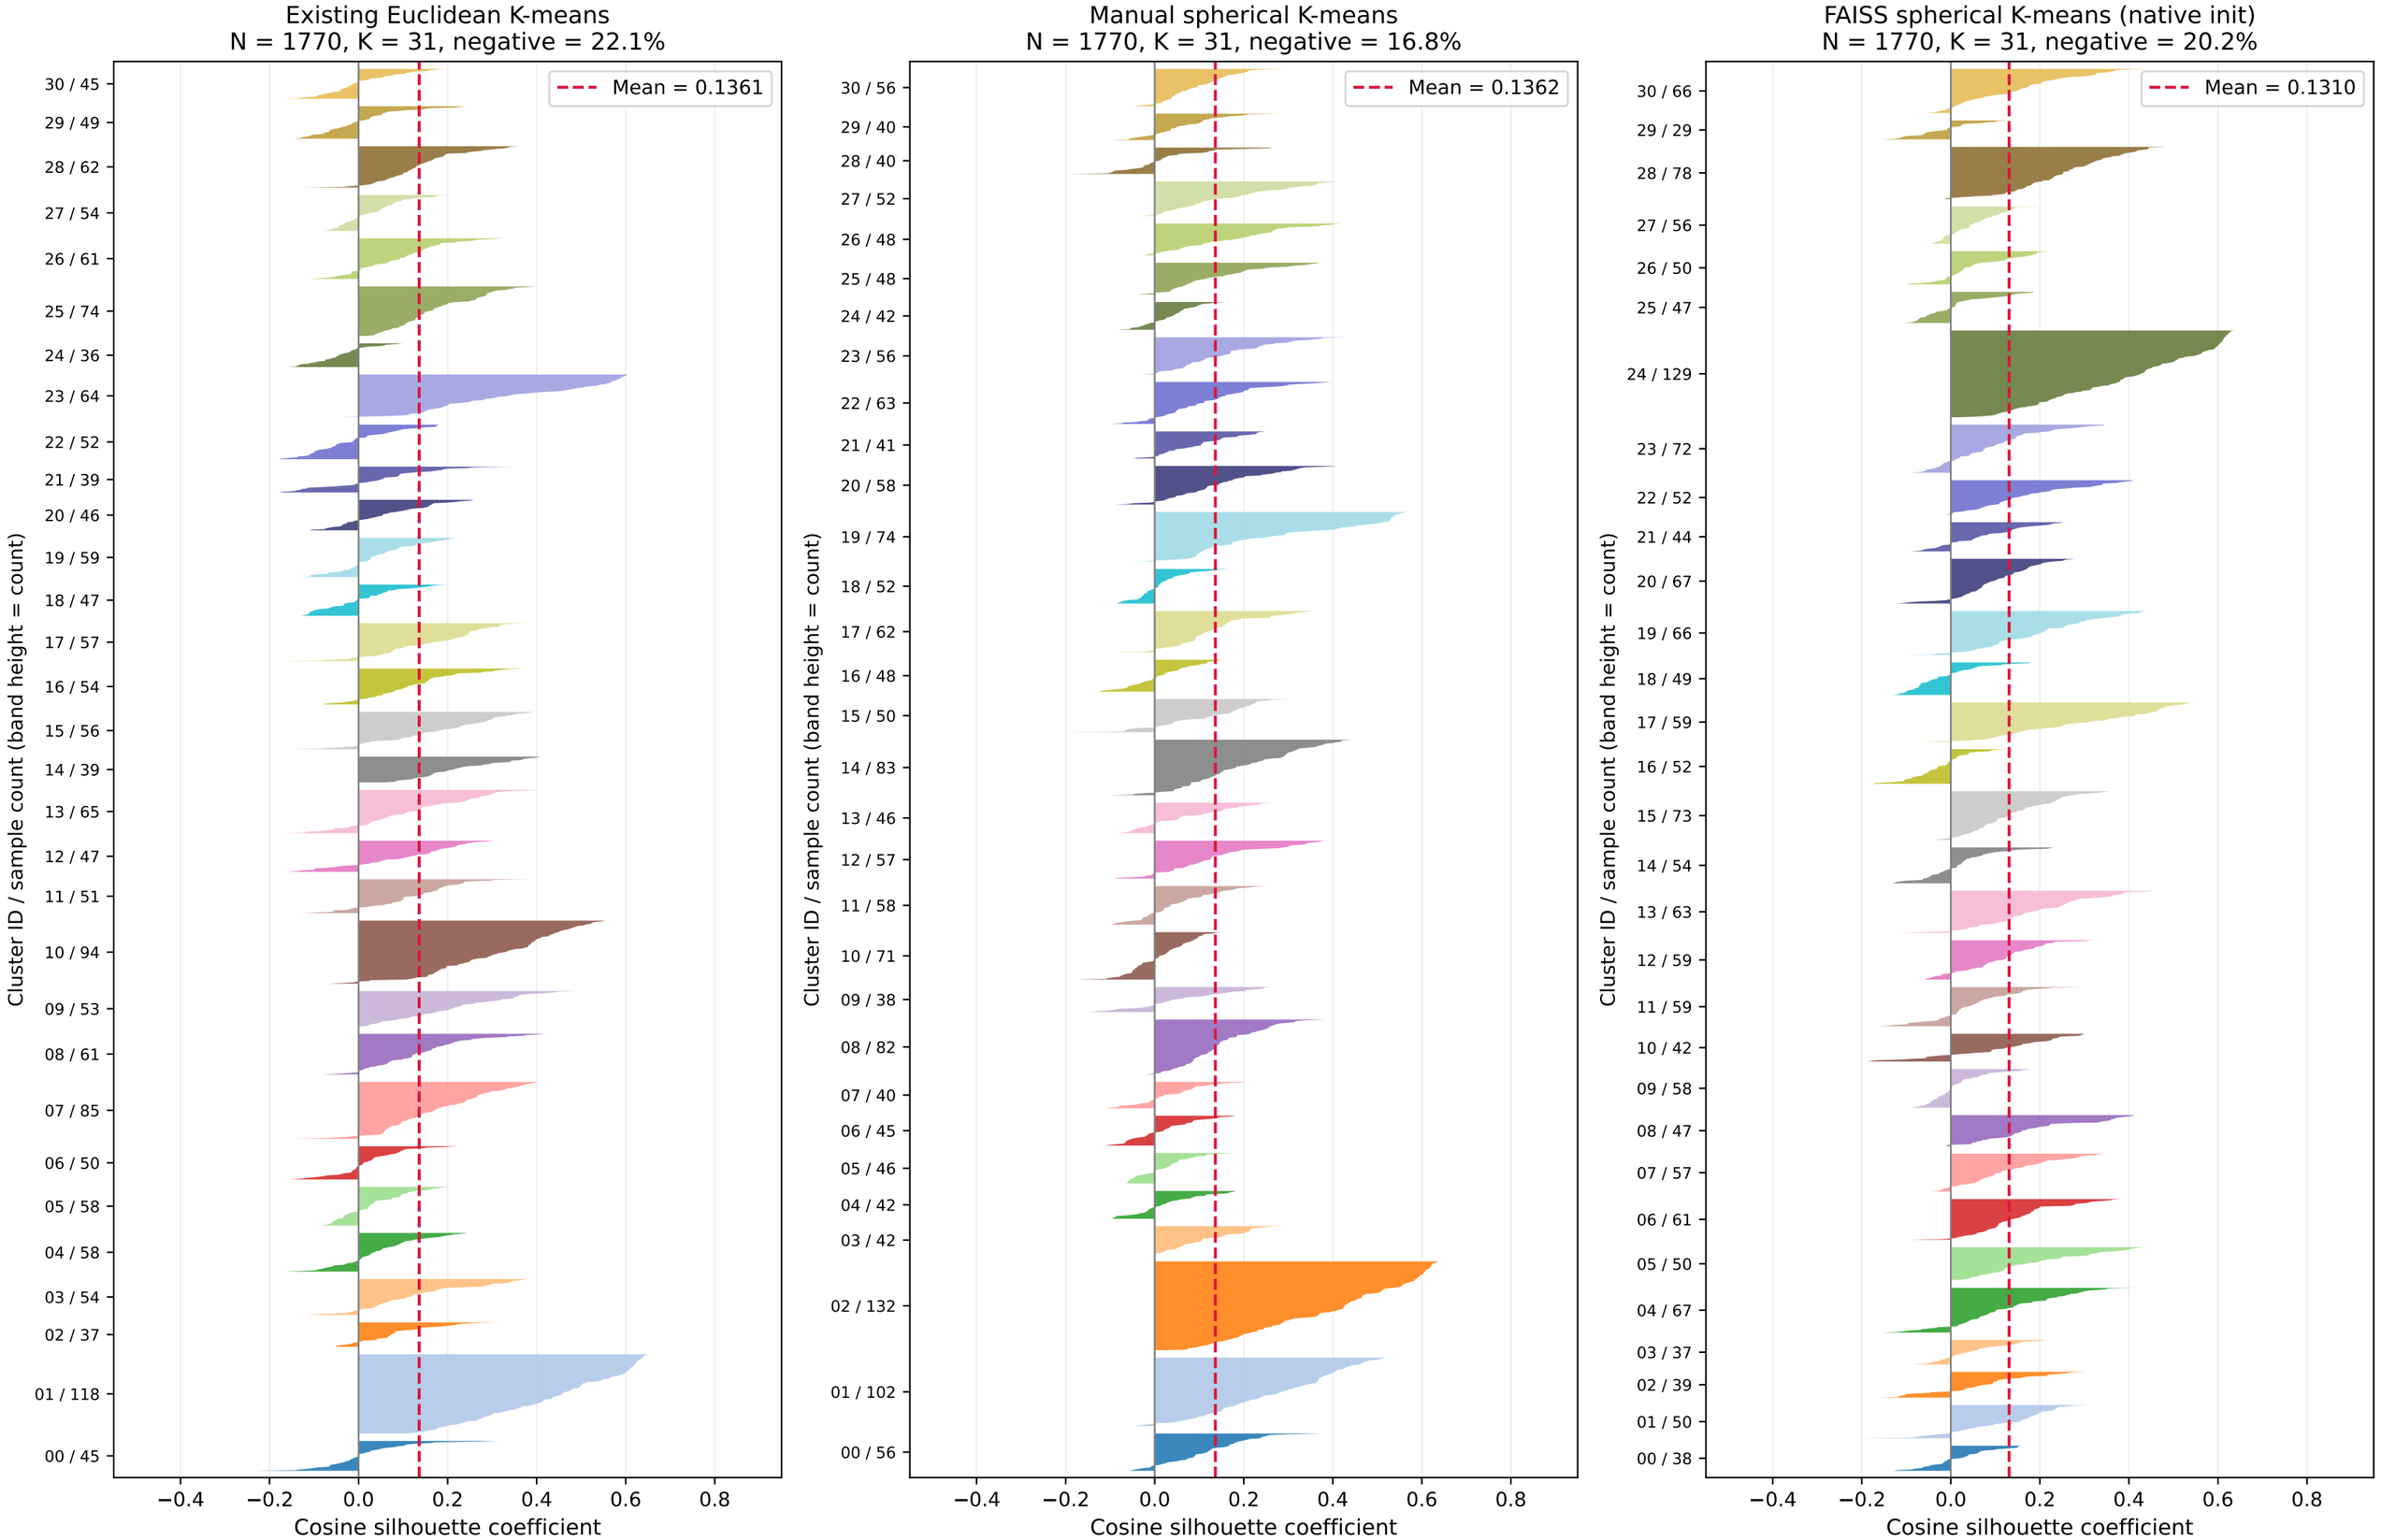

Cluster IDs and colors are local to each fitted model; matching IDs across panels do not imply matching clusters.

Caltech-101 held-out silhouettes | Stage 1 | Seed 43
Fixed centers selected from 50 restarts; all held-out samples; scores sorted within each cluster

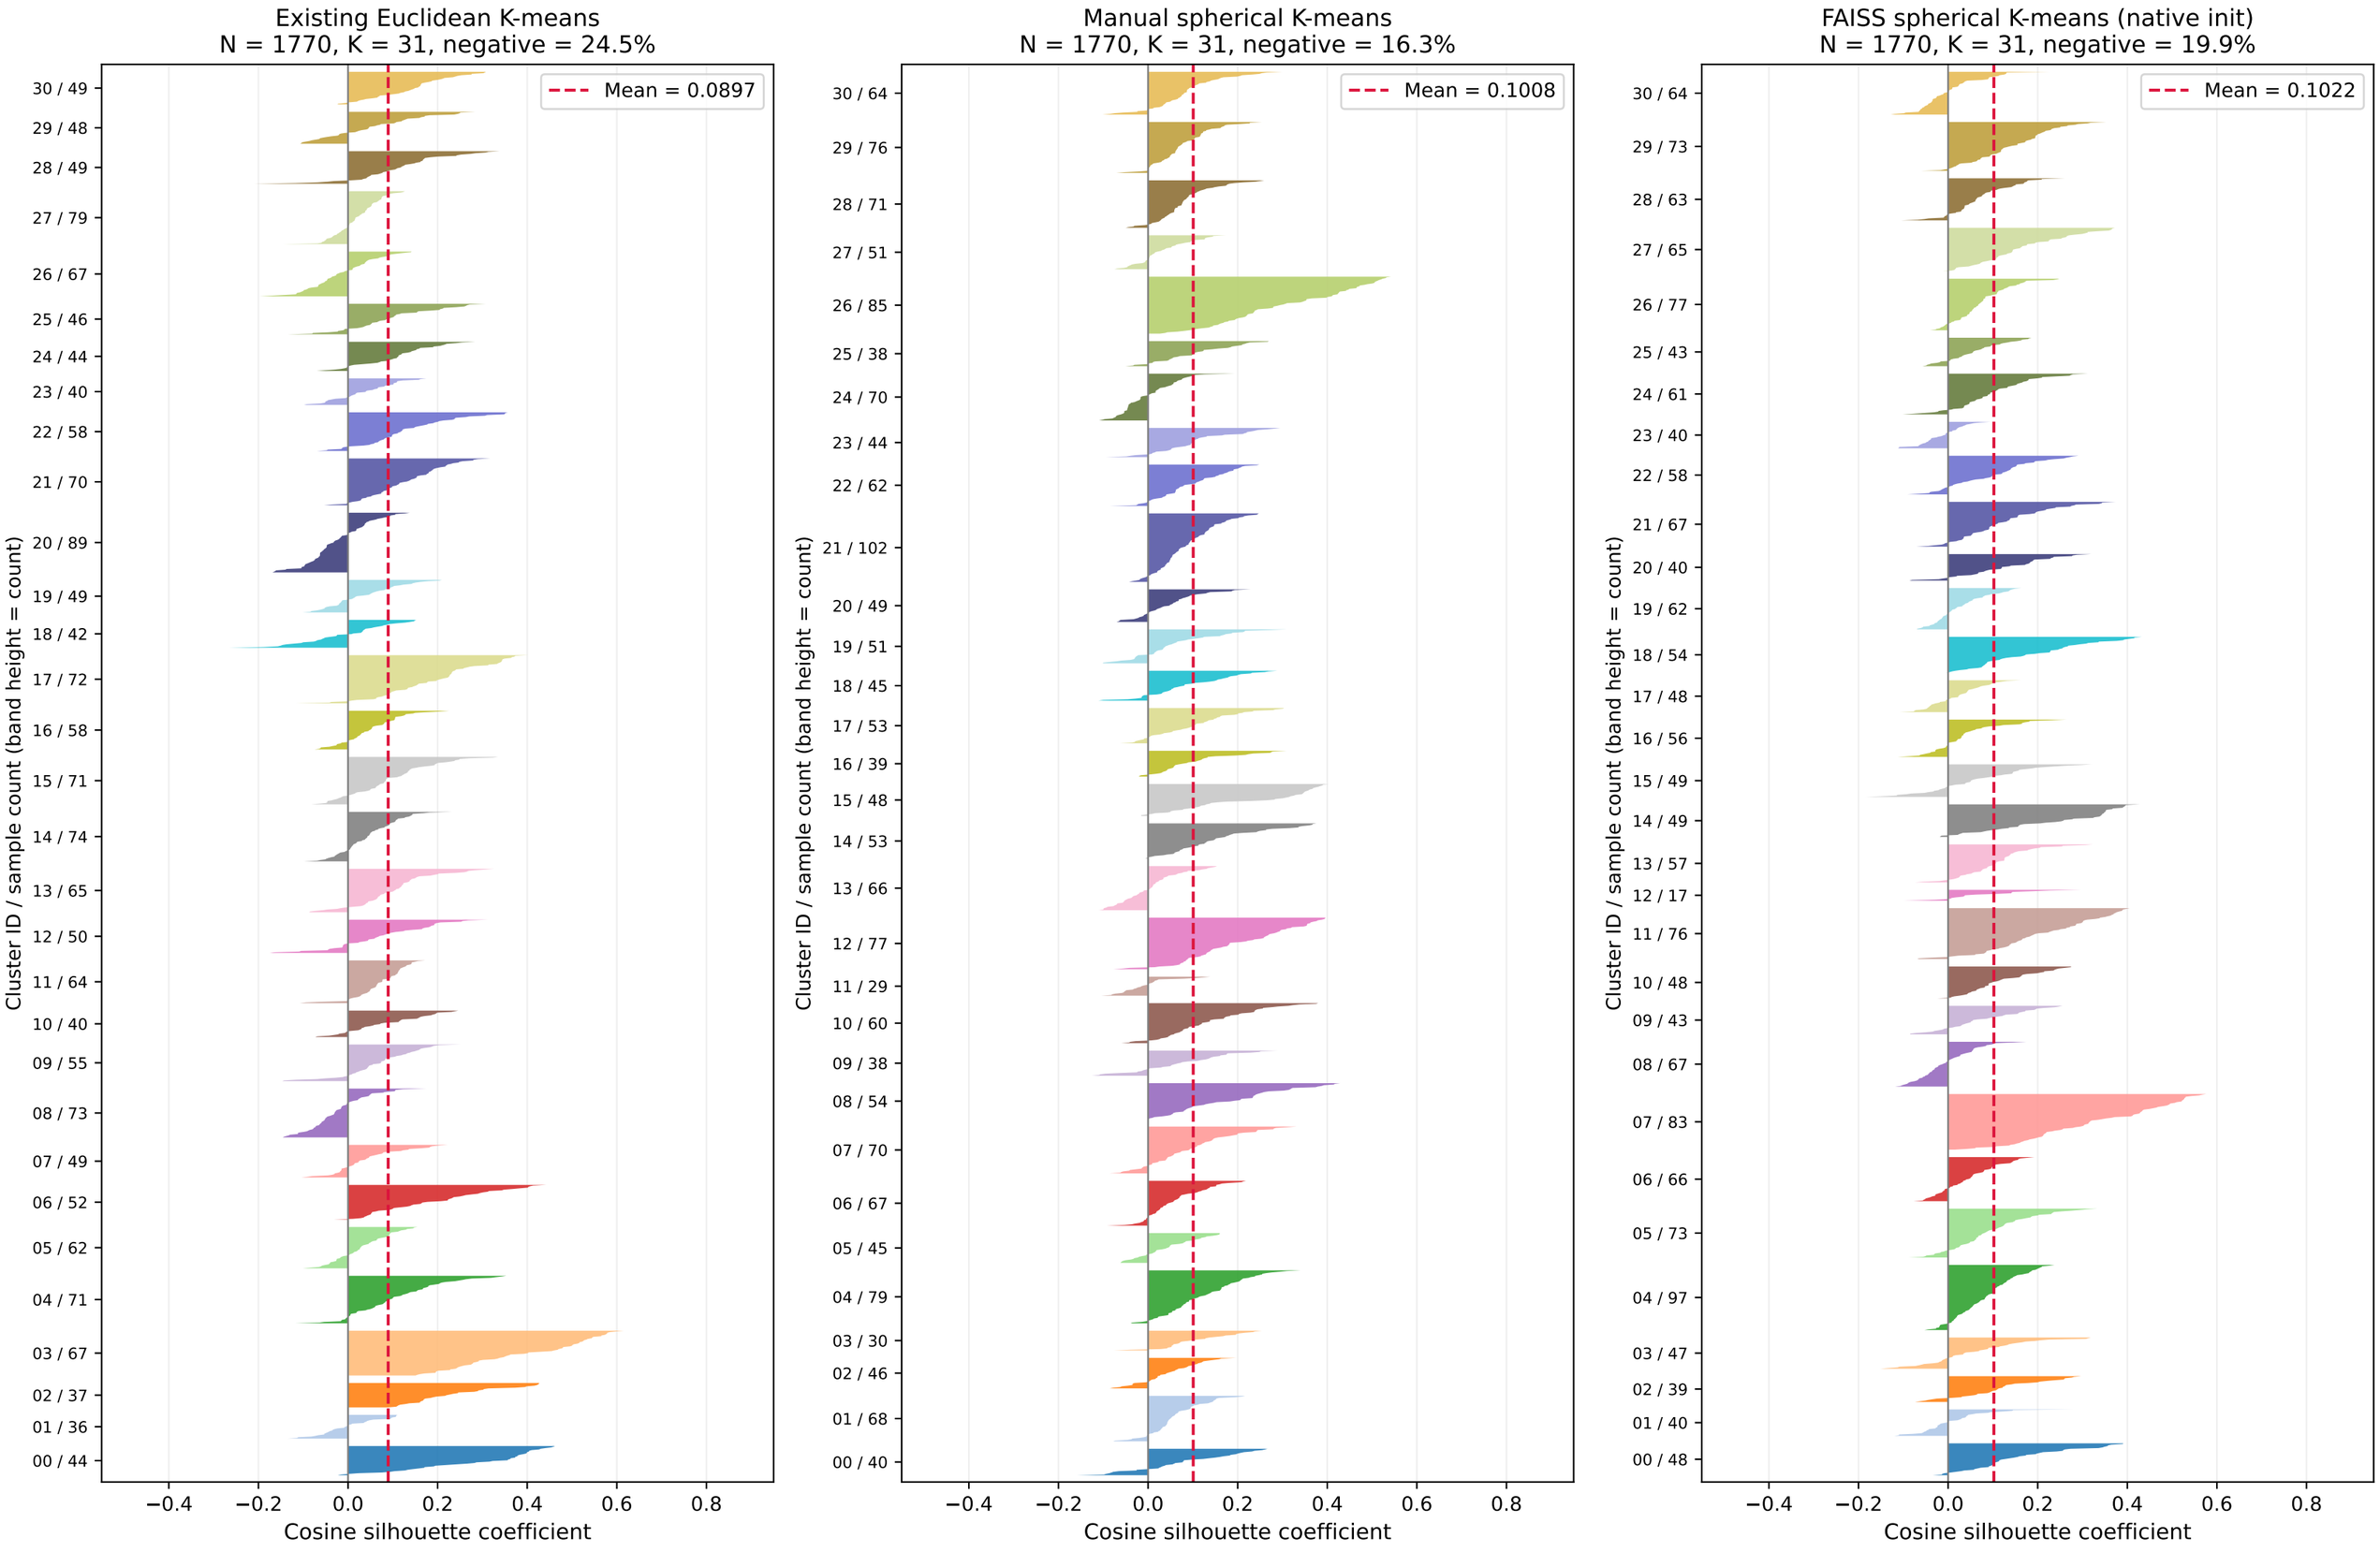

Cluster IDs and colors are local to each fitted model; matching IDs across panels do not imply matching clusters.

Caltech-101 held-out silhouettes | Stage 1 | Seed 44
Fixed centers selected from 50 restarts; all held-out samples; scores sorted within each cluster

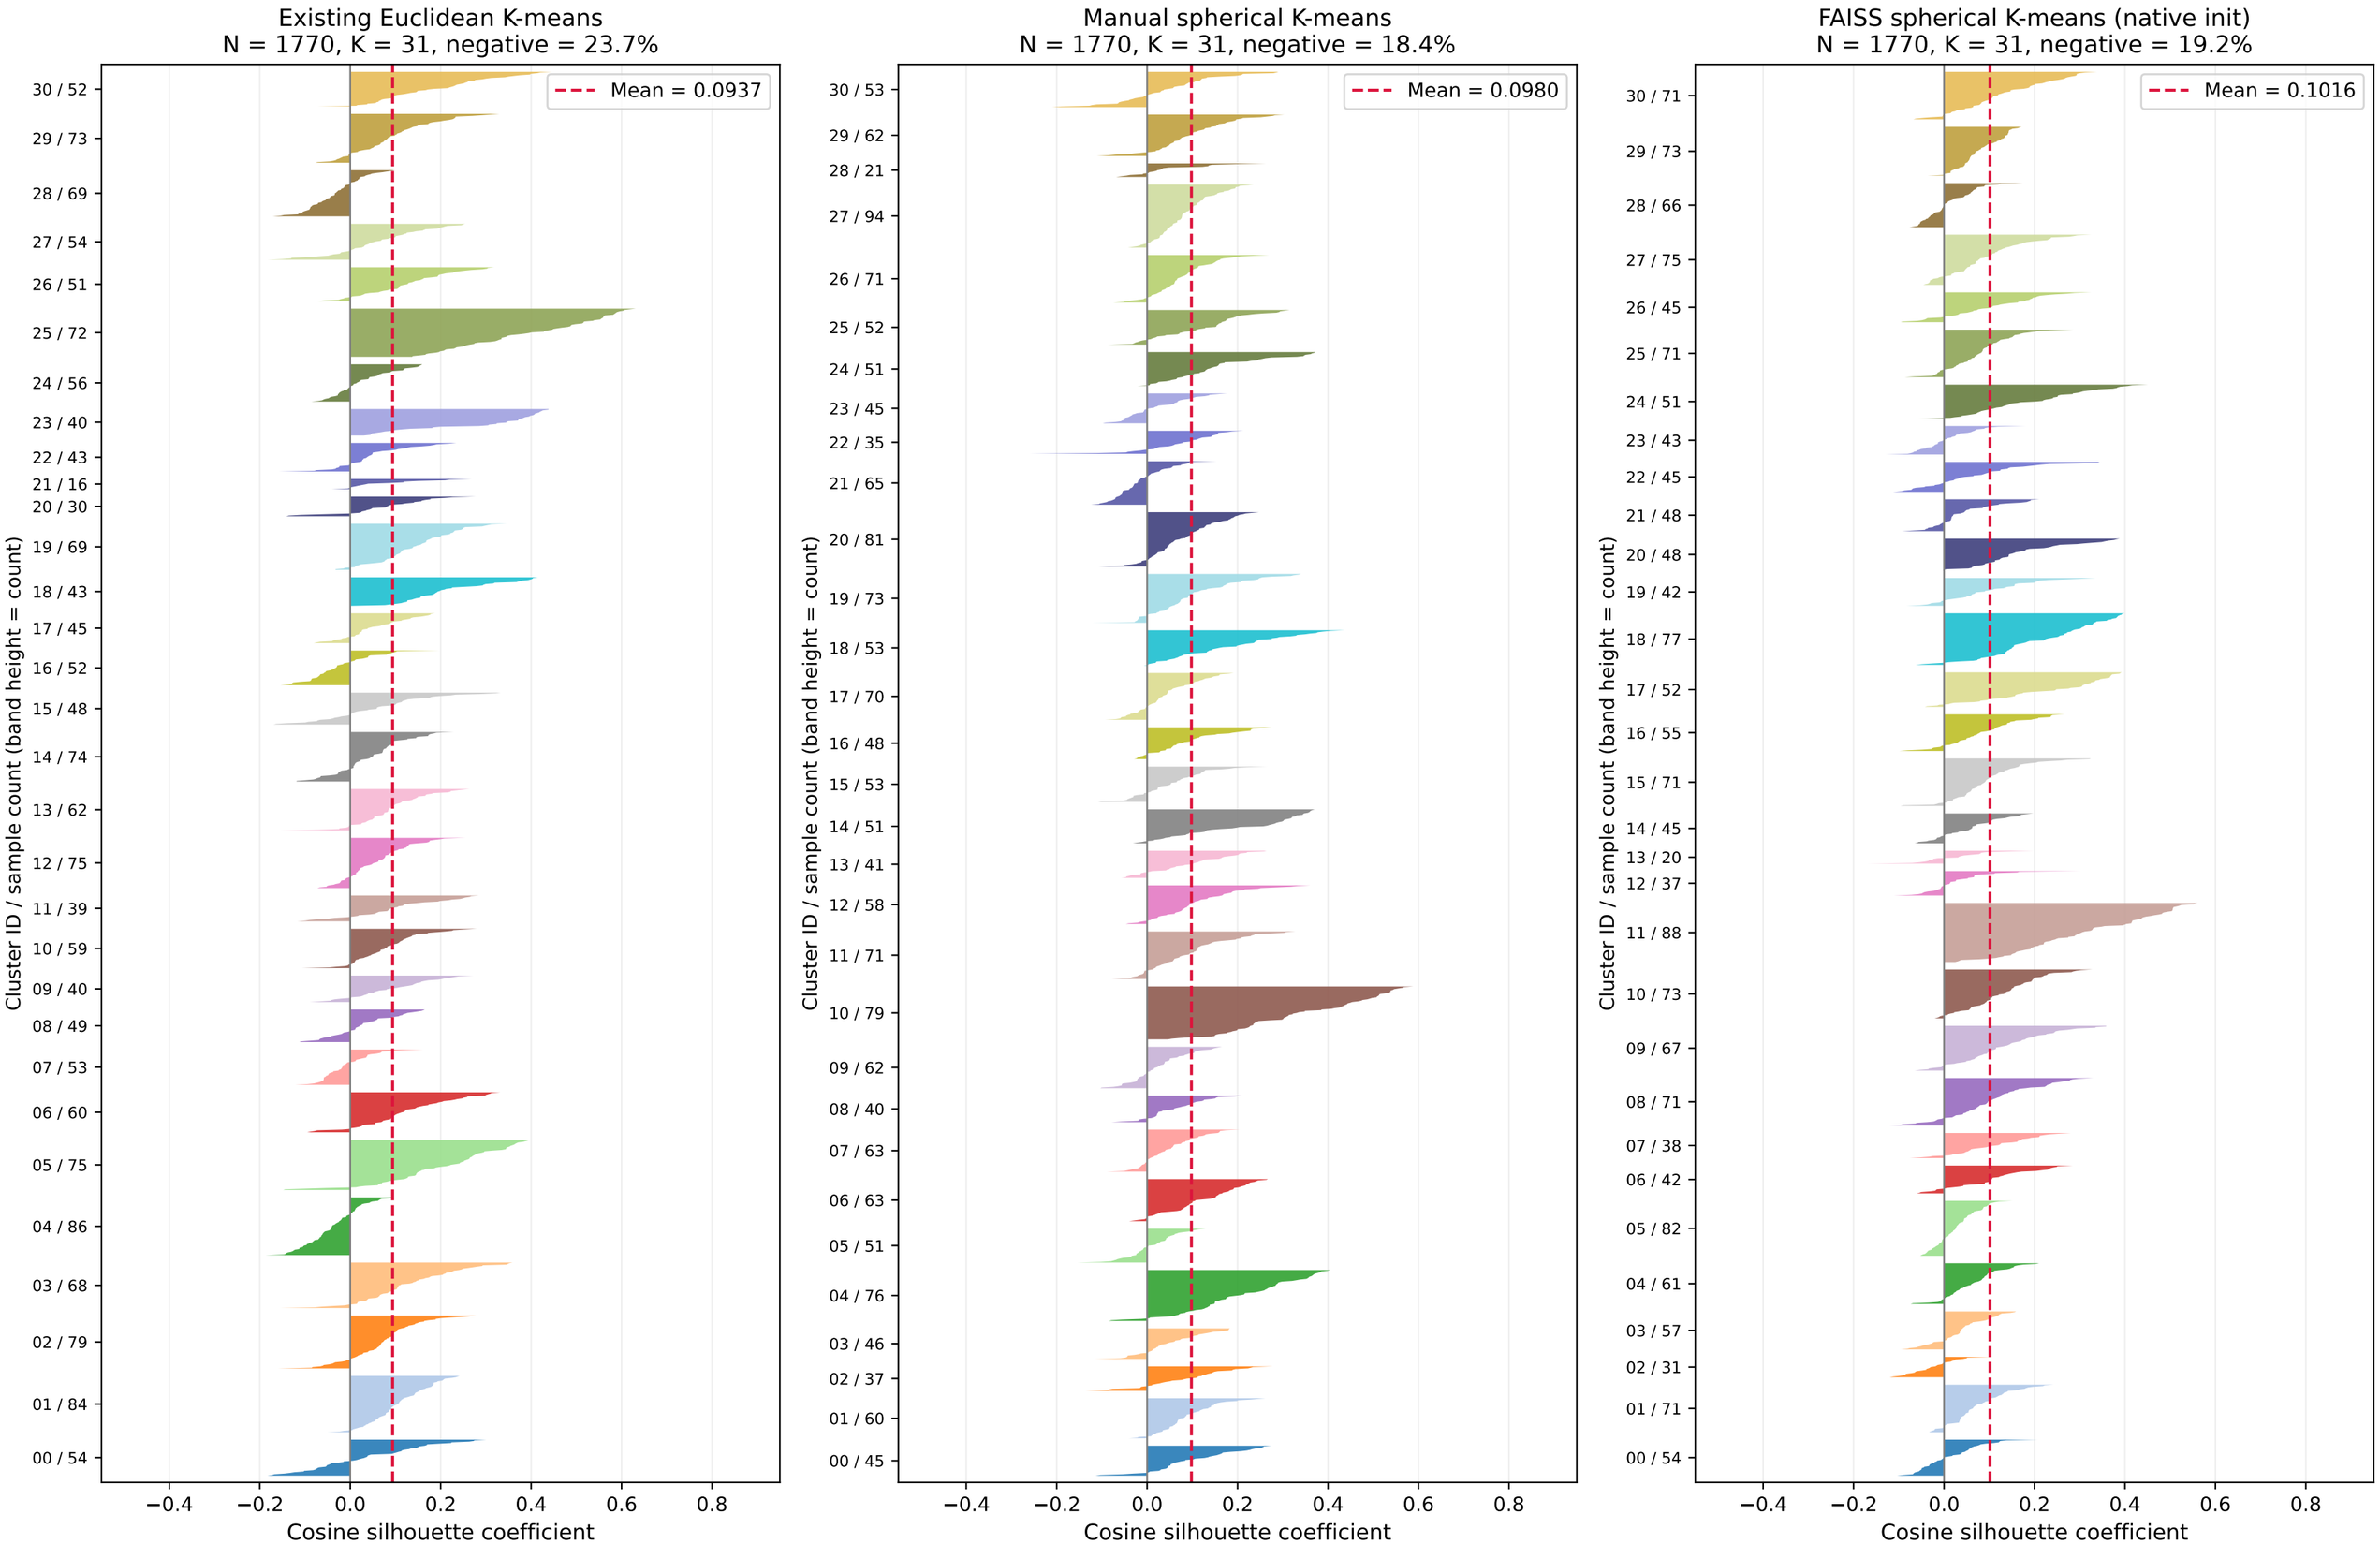

Cluster IDs and colors are local to each fitted model; matching IDs across panels do not imply matching clusters.

Caltech-101 held-out silhouettes | Stage 2 | Seed 42
Fixed centers selected from 50 restarts; all held-out samples; scores sorted within each cluster

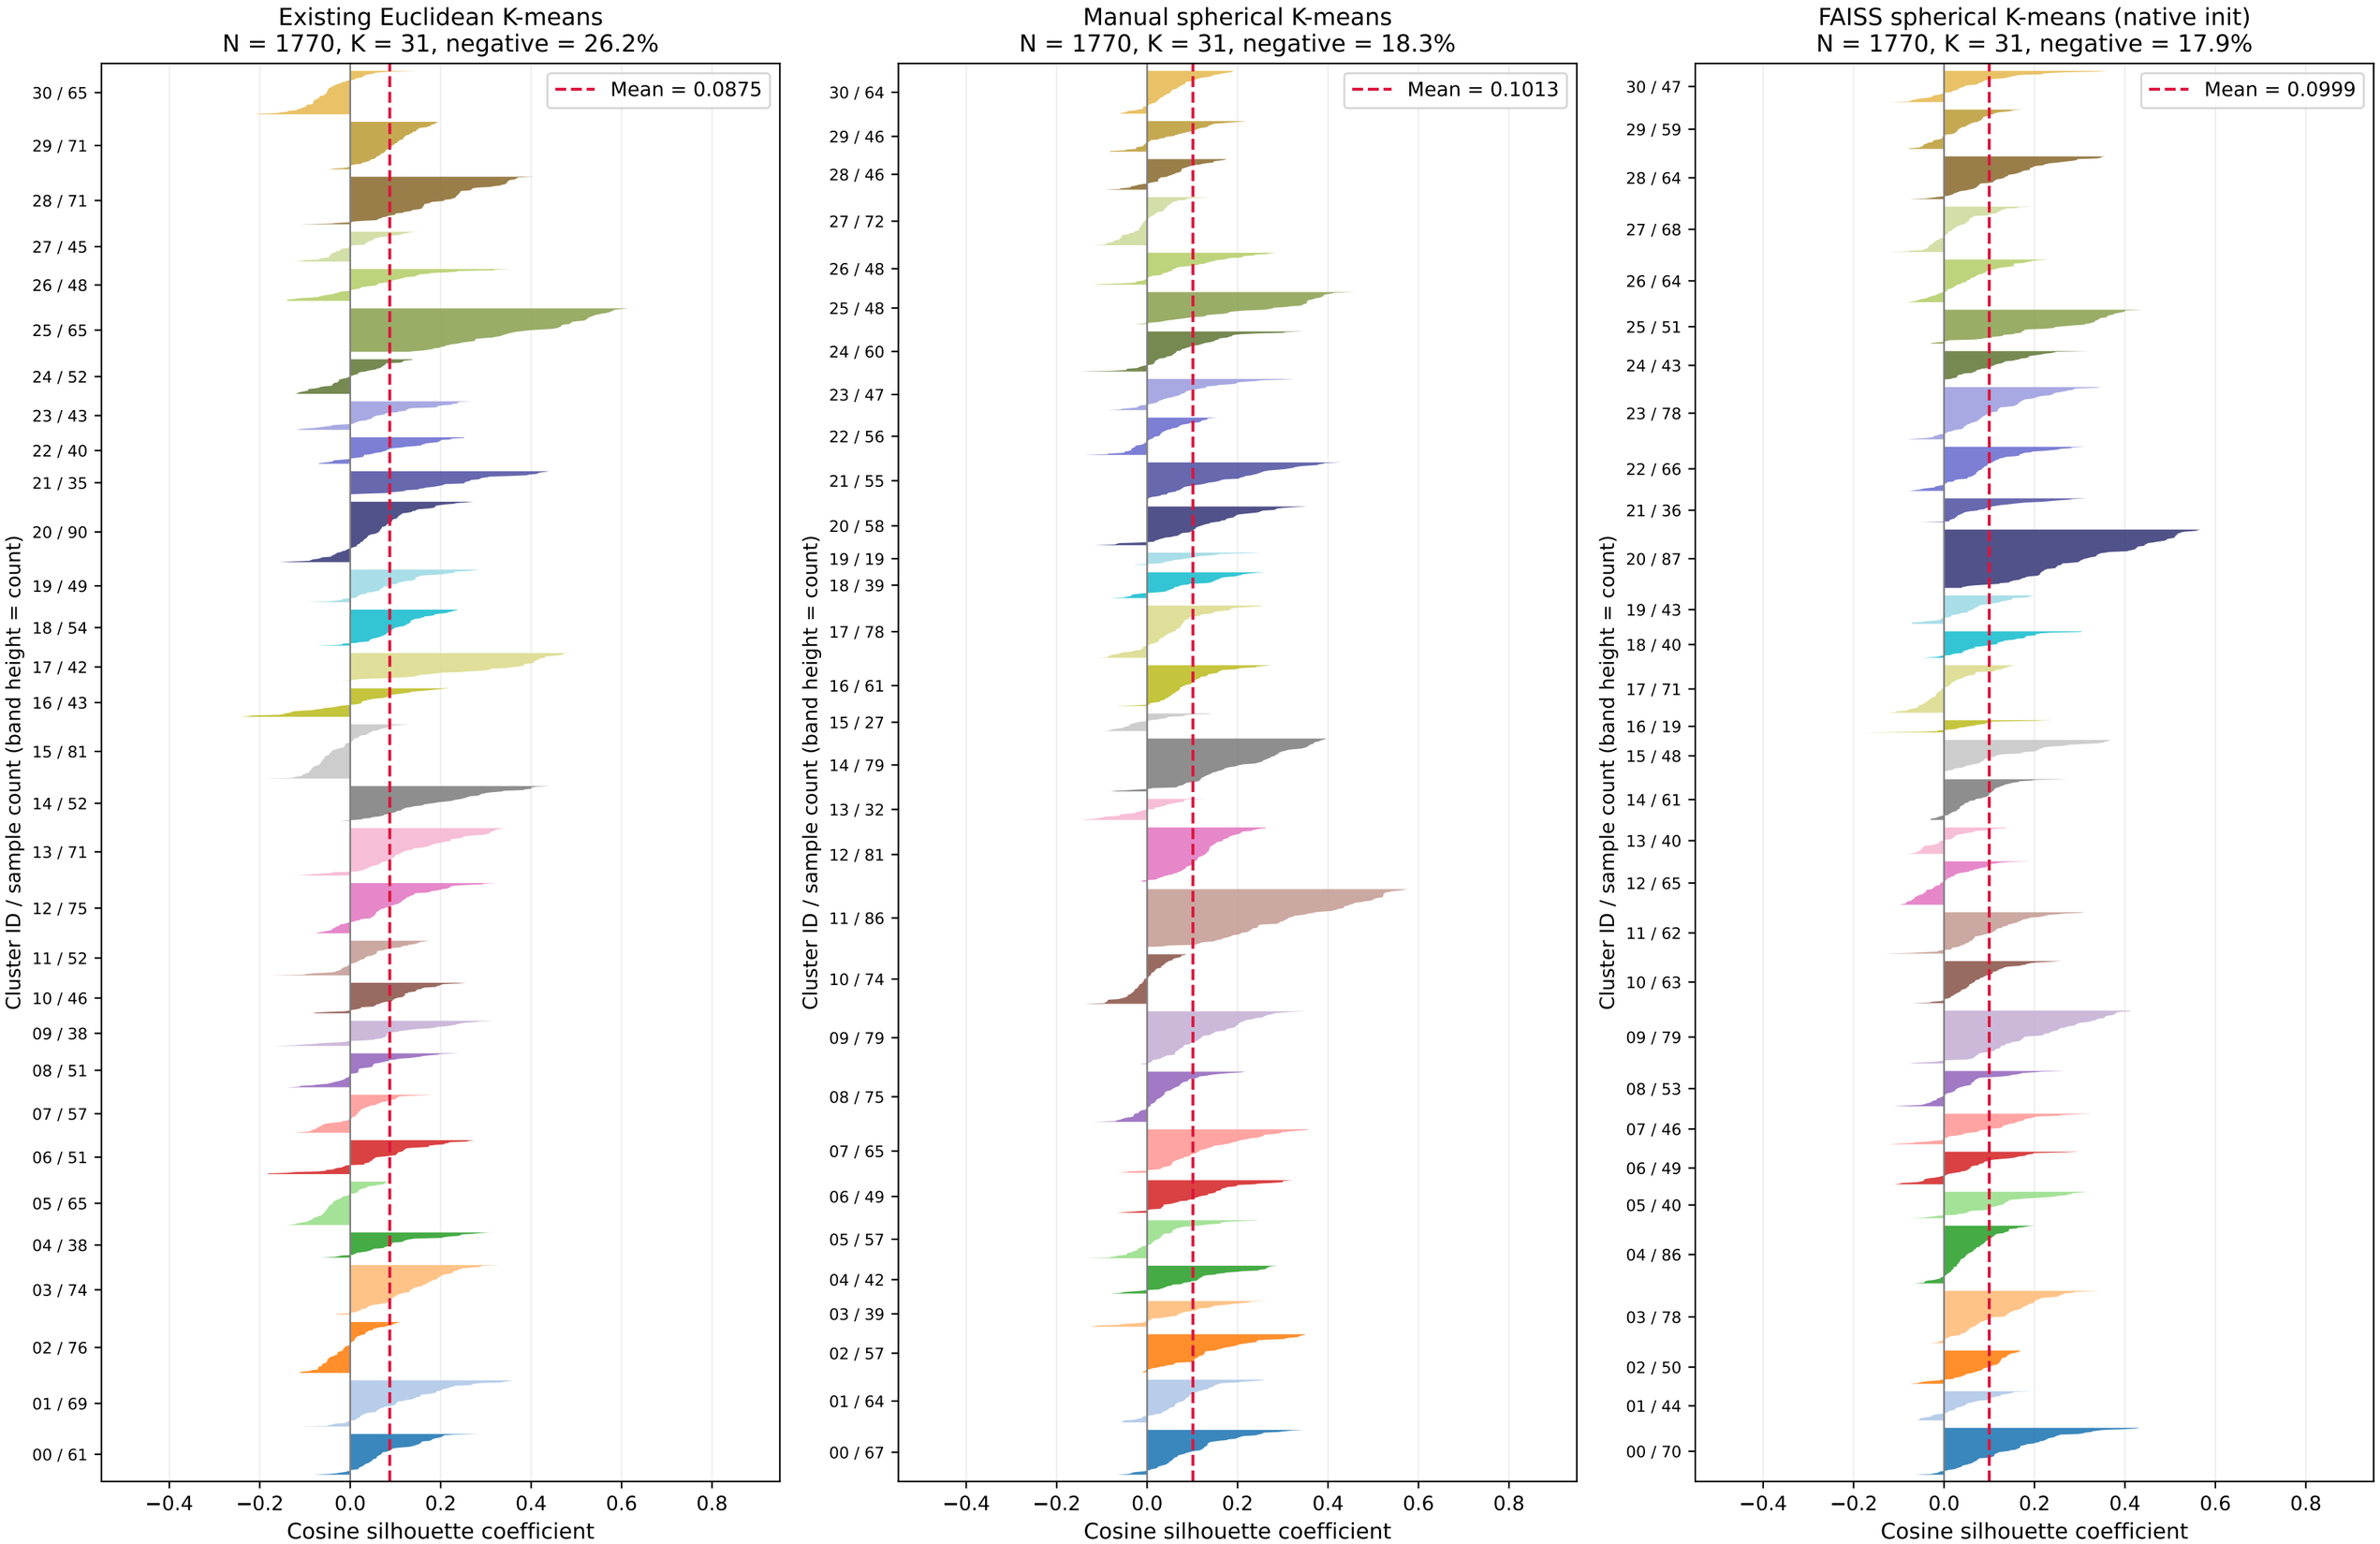

Cluster IDs and colors are local to each fitted model; matching IDs across panels do not imply matching clusters.

Caltech-101 held-out silhouettes | Stage 2 | Seed 43
Fixed centers selected from 50 restarts; all held-out samples; scores sorted within each cluster

Cluster IDs and colors are local to each fitted model; matching IDs across panels do not imply matching clusters.

Caltech-101 held-out silhouettes | Stage 2 | Seed 44
Fixed centers selected from 50 restarts; all held-out samples; scores sorted within each cluster

Cluster IDs and colors are local to each fitted model; matching IDs across panels do not imply matching clusters.
